

2005-2009

Capital Improvement Program

2005 - 2009 CAPITAL IMPROVEMENT PROGRAM

Table of Contents

Organization

The 2005-2009 Capital Improvement Program is prepared in accordance with the requirements of Section 6.05 of the City Charter of the City of Laredo, which requires a clear general summary of its contents, a detail of all projects proposed within the next three years complete with cost estimates and justification, the method of financing and recommended time frames for each improvement, and an estimated cost of operating and maintaining proposed improvements. The Planning & Zoning Commission is required to make a recommendation concerning the proposals pursuant to Section 24-54(7) of the Code of Ordinances. The various projects have been organized to reflect the functional character of the improvements, which often cross the lines of departmental responsibility. One or more sources of funding are identified with projects as they apply. As a result, street improvement projects which may be funded in part by transit will be identified in detail as a part of Public Works - Street Improvements. Similarly, projects funded by Community Development Block Grants will appear in individual project detail and in summaries for funding sources.

Projects have been categorized in the Foreword as follows: Mandated, Obligated, Essential, and Desirable. Projects identified as Mandated or Obligated are also essential.

The purpose of the Capital Improvement Program is to provide a readable and coherent plan for the physical development of the City. Projects have been grouped in order to provide an orderly means of review, in a manner which is supportive of joint facility development, if and where appropriate. Each functional group is prefaced by a brief explanation of the highlights of the proposed capital improvement plan.

The functional classifications include General Government, Public Safety, Public Works, Public Utilities, Culture & Recreation, and Transportation.

2005 - 2009 CAPITAL IMPROVEMENT PLAN

City Priority Classification

Glossary

Mandated Projects: The 2001-2005 Capital Improvement Program includes those projects which are required improvements as a matter of state and federal law. Failure to effect compliance may result in penalties or civil liability, or both.

Obligated Projects: These projects include those with an established legal commitment by the city.

Essential Projects: The priority of the projects proposed as essential should be considered in conjunction with the proposed funding source. As a result, projects funded by water revenues do not compete with police facilities, as an example, nor airport projects with bridge improvements. In many cases capital maintenance requirements are "essential" if the city's investment in capital facilities are to be preserved. Several projects are proposed for the purpose of reducing operating and maintenance costs, or providing vital service linkages.

Capital Maintenance: Funds for capital maintenance are derived from operating revenues which include property taxes and enterprise operating revenues.

Desirable Projects: Designation as a desirable project is applicable when the proposed project is neither mandated, obligated, nor essential to health, safety, and welfare.

Project details are presented in department priority. A summary of city priority classification by project is as follows.

City Manager's Office

Memo

To: Mayor and Council Members
From: Larry Dovalina, City Manager *LD*
Date: June 21, 2004
Re: Capital Improvement Program 2005-2009

In accordance with Section 6.05 of the City Charter, we hereby submit a five (5) year flexible Capital Improvement Program (CIP). The CIP process is extremely important in that it sets aside periods in time in which priorities are set and limited financial resources are allocated. Since 1985, the City's first bond program in over 30 years, the City has continued an aggressive capital improvement program to meet the demands of the fastest growing city in the state. Below are the bond sales of property taxes levied for debt service since 1985, totaling \$112,192,000 and are supported by a current tax rate of approximately 14.11cents.

Year	Amount	Year	Amount
1985	\$1,000,000	1993	\$3,000,000
1986	\$4,000,000	1994	\$22,725,000
1987	\$1,275,000	1995	\$2,442,000
1988	\$3,000,000	1997	\$9,490,000
1989	\$4,000,000	1998	\$16,160,000
1990	\$5,500,000	2000	\$9,365,000
1991	\$5,500,000	2002	\$9,925,000
1992	\$11,300,000	2003	\$3,510,000

The three primary methods of financing capital improvements for the City have been long-term debt, grants, especially Community Development Block Grants, and enterprise system revenues. The development of this year's CIP was particularly important due to the fact that the City is planning to issue approximately \$70.555 Million in Property Tax Supported Certificates of Obligation between FY 2005-2009. The fiscal strength of the City will now allow us to build much needed public safety buildings and regional parks for the community to enjoy among many other exciting new projects.

The 2005-2009 Capital Improvement Program was prepared in collaboration between the City Manager's, Planning and Engineering Departments in conjunction with those departments whose projects are included.

The support of the City Council in implementing the Capital Improvement Plan has been steadfast. We look forward to working with you to make these projects a reality.

05-22d-001	Bristol Road Culvert Reconstruction	PW	Drainage	Desirable	2	VII

Description	Operation & Maintenance					
Reconstruction of Bristol Road Culvert with five 5 ft. x 3 ft. concrete box culverts, including sidewalks, handrails, headwalls, and singwalls. Relocation of a sanitary sewer line is included, and acquisition of an adjacent property for a corner clip is possibly needed. Reconstruction is recommended in order to accomodate the greater capacity and runoff from upstream flows.	<u>FY 2005</u>	<u>FY 2006</u>	<u>FY 2007</u>	<u>FY 2008</u>	<u>FY 2009</u>	<u>Total</u>

01-00-002	Addition to Health Complex	HW	Health	Desirable	2	ALL

Description	Operation & Maintenance						

Phase I: Construct a second floor on the North building of the Health Complex on Cedar Avenue. This will allow for 19,000 sq. ft. of space for an auditorium and training room, space for the WIC Admin. Offices to alleviate the crowded clinics on the ground floor. In addition, this new floor will house the Billing and Environmental/Animal Control Programs.

04-00-002	Fence	HW	Health	Desirable	4	ALL

Description	Operation & Maintenance						

Construct a brick and wrought iron fence along the Cedar Avenue property perimeter line to enhance the structural design of the complex while at the same time increase the value of the property. Also, a solid cinder block fence will be constructed along the North perimeter of the property to hinder vandals from entering the complex during off-hours and evenings to cause damage to buildings and vehicles.

2005 - 2009 CAPITAL IMPROVEMENT PLAN

GLOSSARY

ACCOUNTABILITY - The state of being obliged to explain one's actions, to justify what one does. Accountability requires governments to answer to the citizenry to justify the raising of public resources and the purposes for which they are used.

ACCOUNTING SYSTEM - The methods and records established to identify, assemble, analyze, classify, record and report a government's transactions and to maintain accountability for the related assets and liabilities.

ACTIVITY - A specific and distinguishable service performed by one or more organizational components of a government to accomplish a function for which the government is responsible (e.g., police is an activity within the public safety function).

AD VALOREM TAX - A tax based on value (e.g., a property tax).

ALLOTMENT - A part of an appropriation that may be encumbered or expended during a given period.

ANNUAL BUDGET - A budget applicable to a single fiscal year.

APPROPRIATED BUDGET - The expenditure authority created by the appropriation bills or ordinances, which are signed into law, and the related estimated revenues. The appropriated budget would include all reserves, transfers, allocations, supplemental appropriations and other legally authorized legislative and executive changes.

APPROPRIATION - A legal authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An appropriation usually is limited in amount and time it may be expended.

ASSESSED VALUATION - A valuation set upon real estate or other property by a government as a basis for levying taxes.

ASSESSMENT - The process of making the official valuation of property for taxation, or the valuation placed upon property as a result of this process.

ASSET - A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events.

BONDED DEBT - The portion of indebtedness represented by outstanding bonds.

BOND ORDINANCE OR RESOLUTION - An ordinance or resolution authorizing a bond issue.

BONDS AUTHORIZED AND UNISSUED - Bonds that have been authorized legally but not issued and that can be issued and sold without further authorization.

BONDS ISSUED - Bonds sold by the government.

BUDGET - A plan of financial operation estimating expenditures for a given period and the proposed means of financing them. Used without a modifier, the term indicates a financial plan for a single fiscal year. The term "budget" may designate the financial plan presented to the governing body for approval or the plan adopted by that body.

BUDGETARY ACCOUNTS - Accounts used to enter the formally adopted annual operating budget into the general ledger as part of the management control technique of formal budgetary integration.

BUDGETARY CONTROL - The control or management of a government or enterprise in accordance with an approved budget to keep expenditures within the limitations of available appropriations and available revenues.

BUDGET DOCUMENT - The document which contains a comprehensive financial program for the approval of the appropriating governing body. The budget document usually consists of three parts: a message from the budget-making authority and a summary of proposed expenditures and the means of financing them; schedules supporting the revenues, expenditures and other data used in making the estimates; and drafts of the appropriation, revenue and borrowing measures necessary to put the budget into effect.

BUDGET MESSAGE - A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body.

CAPITAL EXPENDITURES - Expenditures resulting in the acquisition of or addition to the government's general fixed assets.

CAPITAL PROGRAM - A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or other capital needs. It sets forth each project or other contemplated expenditure in which the government is to have a part and specifies the resources estimated to be available to finance the projected expenditures.

2005 - 2009 CAPITAL IMPROVEMENT PLAN

GLOSSARY

CDBG - Funding source includes revenues received from the Community Development Block Grant program.

CERTIFICATES OF OBLIGATION (C.O.) - Funding source includes proceeds of City of Laredo combination tax and special revenue certificates of obligation issued and outstanding. Unlike General Obligation Bonds (G.O.) which require voter approval, all C.O.'s require only City Council approval.

CIP FUND - Funding source includes transfers from the Bridge System, the General Fund, the Transit Fund, and Hotel-Motel Fund.

C.O.'s PROPOSED - Funding source includes proposed City of Laredo combination tax and special revenue certificates of obligation. These certificates are not yet issued. Unlike General Obligation Bonds (G.O.) which require voter approval, all C.O.'s require only City Council approval.

DEBT - An obligation resulting from the borrowing of money or from the purchase of good and services. Government debt includes bonds, time warrants and notes.

DEBT LIMIT - The maximum amount of outstanding gross or net debt legally permitted by law.

DEBT SERVICE FUND - A fund established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Sometimes referred to as a SINKING FUND.

DEBT SERVICE FUND REQUIREMENTS - The resources which must be provided for a debt service fund so that all principal and interest payments can be made in full and on schedule.

DEBT SERVICE REQUIREMENTS - The amount of money required to pay interest on outstanding debt, serial maturities of principal for serial bonds and required contributions to accumulate moneys for future retirement of term bonds.

EXPENDITURES - Decreases in net financial resources. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service and capital outlays, and intergovernmental grants, entitlements and shared revenues.

EXPENSES - Outflow of resources, use of assets, or the incurring of liabilities, or a combination.

FISCAL PERIOD - Any period at the end of which a government determines its financial position and the results of its operations.

FISCAL YEAR - A 12-month period to which the annual operating budget applies.

FIXED BUDGET - A budget setting forth dollar amounts that are not subject to change based on the volume of good or service to be provided.

FORMAL BUDGETARY INTEGRATION - The management control technique through which the annual operating budget is recorded in the general ledger through the use of budgetary accounts. It is intended to facilitate control over revenues and expenditures during the year.

FUND - A fiscal and accounting entity with a self-balancing set of accounts in which cash and other financial resources, all related liabilities and residual equities, or balances, and changes therein, are recorded and segregated to carry on specific activities or attain certain objectives in accordance with special regulations, restrictions or limitations.

FUND BALANCE - The difference between fund assets and fund liabilities of governmental and similar trust funds.

FUND TYPE - The fund used to account for all financial resources, except those required to be accounted for in another fund.

GENERAL REVENUES - Funding sources include revenues from the General Fund, Water Fund, Sewer Fund, Airport Fund, and Transit Fund.

GENERAL OBLIGATION BONDS (G.O.'s) - City of Laredo funding sources include general obligation bonds issued and outstanding. G.O Bonds require voter approval, and are issued with City Council approval.

G.O. BONDS PROPOSED - City of Laredo funding sources include proposed general obligation bonds. These are bonds that have not yet been issued or may not yet have been approved by the voters. All G.O. bonds require authorization by the voters.

2005 - 2009 CAPITAL IMPROVEMENT PLAN

GLOSSARY

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) - Uniform minimum standards and guidelines for financial accounting and reporting that govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures.

GENERALLY ACCEPTED AUDITING STANDARDS (GAAS) - Standards established by the AICPA for the conduct and reporting of financial audits. There are 10 basic GASS, classed into three broad categories: general standards, standards of field work and standards of reporting. The Auditing Standards Board of the AICPA publishes SAS to comment and expand upon these basis standards. These SAS, together with the 10 basic standards, constitute GASS. These GASS set forth the objectives of the audit and establish measures that can be applied to judge the quality of its performance.

GOVERNMENTAL ACCOUNTING - The composite activity of analyzing, recording, summarizing, reporting and interpreting the financial transactions of governments.

INCOME - A term used in proprietary fund-type accounting to represent (1) revenues or (2) the excess of revenues over expenses.

INCOME BEFORE OPERATING TRANSFERS - Proprietary fund operating income plus nonoperating revenues and minus nonoperating expenses.

LEASE-PURCHASE AGREEMENTS - Contractual agreements that are termed leases, but that in substance are purchase contracts.

LEGAL LEVEL OF BUDGETARY CONTROL - The level at which spending in excess of budgeted amounts would be a violation of law.

LEVY - (1) (Verb) To impose taxes, special assessments or service charges for the support of government activities, (2) (Noun) The total amount of taxes, special assessments of service charges imposed by a government.

LOCAL MATCH - Funding sources include revenues from the General Fund, Airport Fund, Water Fund, Sewer Fund, CDBG Fund, and other funds.

LIABILITIES - Probable future sacrifices of economic benefits, arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events.

MACHINERY AND EQUIPMENT - Property that does not lose its identity when removed from its location and is not changed materially or consumed immediately (e.g., within one year) by use.

MAINTENANCE - The act of keeping capital assets in a state of good repair. It includes preventive maintenance, normal periodic repairs; replacement of parts, structural components and so forth and other activities needed to maintain the asset so that it continues to provide normal services and achieves its optimum life.

NET INCOME - Proprietary fund excess of operating revenues, nonoperating revenues and operating transfers out.

OBLIGATIONS - Amounts a government may be required legally to meet out of its resources. They include not only actual liabilities, but also unliquidated encumbrances.

OTHER REVENUES - Funding sources include revenues from the Transit System (1/4 cent) sales tax, Hotel-Motel taxes, Street Closing revenues, Interest from G.O. and C.O. bond proceeds, private contributions, and other.

OPERATING BUDGET - Plans of current expenditures and the proposed means of financing them. The annual operating budget (or, in the case of some state governments, the biennial operating budget) is the primary means by which most of the financing, acquisition, spending and service delivery activities of a government are controlled. The use of annual operating budgets is usually required by law. Even when not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government.

ORDINANCE - A formal legislative enactment by the governing body of a municipality. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies the difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status. Ordinarily, the statutes or charter will specify or imply those legislative actions that must be by ordinance and those that may be by resolution. Revenue-raising measures, such as the imposition of taxes, special assessments and service charges, universally require ordinances.

PLEDGED REVENUES - Funds generated from revenues and obligated to debt service or to meet other obligations specified by the bond contract.

2005 - 2009 CAPITAL IMPROVEMENT PLAN

GLOSSARY

PROGRAM - Group activities, operations or organizational units directed to attaining specific purposes or objectives.

REPLACEMENT COST - The amount of cash or other consideration that would be required today to obtain the same asset or its equivalent.

RESERVED FUND BALANCE - Those portions of fund balance that are not appropriable for expenditure or that are legally segregated for a specific future use.

RESOLUTION - A special or temporary order of a legislative body; an order of a legislative body requiring less legal formality than an ordinance or statute.

RETAINED EARNINGS - An equity account reflecting the accumulated earning of an enterprise or internal service fund.

REVENUES - (1) Increases in the net current assets of a governmental fund type from other than expenditure refunds and residual equity transfers. Also, general long-term debt proceeds and operating transfers-in are classified as "other financing sources" rather than as revenues. (2) Increases in the net total assets of a proprietary fund type from other than expense refunds, capital contributions and residual equity transfers. Also, operating transfers-in are classified separately from revenues.

RISK MANAGEMENT - All the ways and means used to avoid accidental loss or to reduce its consequences if it does occur.

SELF-INSURANCE - A term often used to describe the retention by an entity of a risk of loss arising out of the ownership of property or from some other cause, instead of transferring that risk to an independent third party through the purchase of an insurance policy. It is sometimes accompanied by the setting aside of assets to fund any related losses. Because no insurance is involved, the term self-insurance is a misnomer.

SPECIAL ASSESSMENT - A compulsory levy made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

SPECIAL ASSESSMENT BONDS - Bonds payable from the proceeds of special assessments. If the bonds are payable only from the collections of special assessments, they are known as special assessment bonds. If, in addition to the assessments, the full faith and credit of the government are pledged, they are known as general obligation special assessment bonds.

SUB FUNCTION - A grouping of related activities within a particular government function (e.g., police is a sub function of the function public safety).

TAXES - Compulsory charges levied by a government of finance services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits, such as special assessments. Neither does the term include charges for services rendered only to those paying such charges (e.g., sewer service charges).

TxDOT - Funding sources include revenues managed by the Texas Department of Transportation, including state and federal sources.

TAX LEVY ORDINANCE - An ordinance through which taxes are levied.

TAX RATE - The amount of tax stated in terms of a unit of the tax base.

TAX-RATE LIMIT - The maximum rate at which a government may levy tax. The limit may apply to taxes raised for a particular purpose or to taxes imposed for all purposes and may apply to a single government or to a class of governments operating in a particular area. Overall tax-rate limits usually restrict levies for all purposes and of all governments, state and local, having jurisdiction in a given area.

TAX ROLL - The official list showing the amount of taxes levied against each taxpayer or property.

TAX SUPPLEMENT - A tax levied by a local government having the same base as a similar tax levied by a higher level of government, such as a state. The local tax supplement is frequently administered by the higher level of government along with its own tax (e.g., locally imposed, state-administered sales tax).

UNENCUMBERED ALLOTMENT - That portion of an allotment not yet expended or encumbered.

UNENCUMBERED APPROPRIATION - That portion of an appropriation not yet expended or encumbered.

UTILITY C.O. BONDS - This funding source includes proceeds from City of Laredo combination tax and special revenue certificates of obligation issued and outstanding. These bonds are paid with a combination of tax and utility revenues.
